Established in 2025, the Ontario East Fibre Community (OEFC) endeavours to bring together fibre artists,, farmers, home crafters, and small businesses to help connect to each other through our region's rich wool heritage. We celebrate locally sourced fibre; support the people who raise, grow, and process it; and proudly share the talent of Eastern Ontario with Canada and the world. Through exciting events and community-led initiatives, we're building a warm, lively fibre community—one story, one skein, and one connection at a time.

M**EMBERSHIP BENEFITS**
